DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1 – 17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Specifically, in claim 1, there is no mention of a first mode or a second mode. In addition, the specification does not mention a first state or a second state. Additionally, in claim 5, the specification does not mention a required queue position.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, in claim 1, there is no mention of a first mode or a second mode. In addition, the specification does not mention a first state or a second state. Additionally, in claim 5, the specification does not mention a required queue position. This leaves the examiner to guess at applicants' intentions.

Because of the problems mentioned above, a proper search could not be conducted at this time.
